INSTALLATION : The Weathersafe yarn of NATURE carpets means that it can be installed indoors or outdoors. When installing Nature Carpets outdoors, you should follow the same rules and make sure the surface on which your installing should be dry, smooth, clean, sound and without cracks or dust. NATURE carpets cannot be installed directly onto patio or paving stones, decking or other unprepared outdoor surfaces.

MAINTENANCE : Outdoor carpets attract a lot of dirt, especially in an area that's used often. While vacuuming and professional cleaning are the best methods for cleaning carpets indoors, NATURE carpets can withstand all-types of cleaning, including pressure washing and hosing. Remember these helpful tips for caring for your Nature carpet outdoors:
